

BINGO call tokens

Print one copy of these tokens onto card and cut out.
Place into a container for the Bingo Caller to draw from.

how to PLAY!

to begin

Print the bingo cards and call tokens onto card, and cut out. You are going to need:

- ➡ Bingo Cards (one per player).
- ➡ A container for the call tokens.
- ➡ Markers: A way of 'marking' the cards as tokens are called: use pennies, buttons, or as a special treat use mini marshmallows or other small sweets!

Laminating prior to cutting out should extend the use of your bingo set!

ready to play

Place all the call tokens into a container, ready to be 'drawn'.

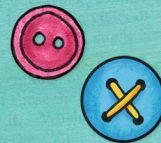

Nominate a Bingo Caller: this person will draw the tokens from the container and make the calls. The Bingo Caller should make sure that the other players cannot see inside the container.

Give a Bingo Card to each player and a handful of markers for their card (buttons, sweets etc)

When all the players are ready, the Bingo Caller can draw the first token and should call out a description of the image. For example 'The 3 Kings'.

Once the call is made, players need to check their Bingo Card. If the image IS on their card, they should cover it with one of their markers. If the image is NOT on their card, no action is required.

The Caller should place the call token on the table in front of everyone for easy reference, and then draw and call a new token! Players should check for the new image on their cards, and the game continues...

Have a fun with this: sing carols, mime, or make up rhymes just like regular bingo!

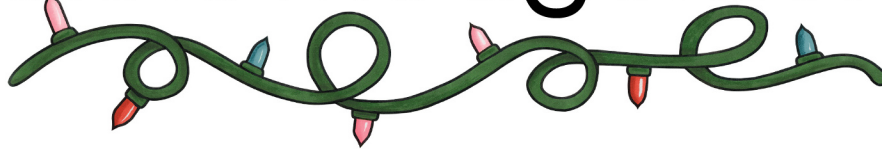

how to win

Quick play: The first player to mark off a line of 5 images (horizontal or vertical), and shouts **BINGO!**

Longer play: The first player to cross off all the images on their Bingo Card, and shouts **BINGO!**
